

I listen to XM Satellite Radio every day. XM Satellite Radio provides variety and quality that are not available elsewhere. Its traffic and weather channels provide continuous coverage of local conditions 24 Hours per day/ 7 days a week, not just during rush hours on normal work days, as standard AM/FM channels do. I pay a subscription fee for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I enjoy and deserve.

Thank you,

Lloyd S. Keys, Jr.
